Consent for Summary Care Record and additional information

1.

Your Doctor will have your basic summary care record. It has information about your health, the medications which you take and any medications which might make you ill (allergic reaction)

A doctor or nurse who doesn't know you very well, might ask to look at your Summary Care Record, this gives them the right information to care for you.

2.

Only people like a doctor or nurse who are treating you can see your summary care record.

The Doctor can add extra information to your record with things like a history of your health problems, operations, or an illness you've had. It can include information about who supports you and what help or type of information you might need at appointments.

The extra information can help doctors and nurses, no matter where you are treated, look after you and help keep you well.

3.

If you would like extra information adding to your summary care record about your health and what support you need let your Doctor know.

If you don't want your information on your Summary Care record you can ask your doctor to remove it

https://digital.nhs.uk/binaries/content/assets/legacy/pdf/p/6/scr_ai_easy_read_patient_leaflet.pdf

Do you consent to sharing information	Yes ✓	No ✗
1. Consent for electronic record sharing?		
2. Consent for summary care record with additional information?		
3. Consent to share data with another professional? (specified third party)		

Reasonable adjustments – Care Plan

A reasonable adjustment is a small change your Doctor can make, to make your Annual Health Check easier for you. Below are examples of reasonable adjustments or you can get help to write down what you need in the blank section. You can ask for these reasonable adjustments to be available for you at your annual health check.

Reasonable Adjustment	How you can help me	Yes ✓	No ✗	Comments
	I need easy read documents.			
	I need information in Braille			
	I need information in large print.			
	I need information in another language – if so what language?			
	I use a wheelchair and will need a hoist if I need a physical examination. I may need a home visit in this instance.			
	I find it difficult to wait in the doctors for my appointment, as it may make me anxious. I may need to wait outside until you are ready to see me.			
	I get very nervous at appointments and need my carer to help me understand what is happening.			

	I may need to visit the surgery before my appointment to feel comfortable in the environment.			
	I need a longer appointment.			
	I need time to process information and answer questions.			
	Bright lights or loud noises may affect me.			
	My carer will support you to understand my needs.			
Other reasonable adjustments?
